## Who can really afford to go to the dentist?

Dental services in the UK are broken with many people unable to register with an NHS dentist and finding difficulty seeking regular and emergency care. Some resort to paying more to go private or at the other end of the spectrum, pulling out their own teeth!

As the international conference for the British Society for Oral and Dental Research annual conference lands in Newcastle, we bring together an expert panel to discuss our dental service.

Join us at 6pm for refreshments with the event finishing at 8pm.
